

Hello Fellow Members!

I am so proud to be a member of UBCP/ACTRA and to run as a candidate for the 2024 Executive Board. I first joined back in 1997 as a Teen Actor and have since worked as a Background Performer, Stand-In, and Actor. Behind the camera, I have worked as a Director, Independent Producer, Assistant Director, and Production Coordinator. This gives me an understanding of the inner workings of production and the studio system, having worked with Disney, Apple, Paramount, and other large studios. I have a unique perspective in this industry, which I will use to benefit our Members.

The next three years will be very important strategically for our Membership. I have worked alongside and gone toe-to-toe with producers. I have heard and been subject to the discrimination to which we, as performers, are exposed. I am no longer willing to tolerate it and I will do everything in my power to stand up for our rights and dignity as artists and as humans, particularly through the next round of contract negotiations. On the home front, I will continue to push to get our fair share of Canadian production funding here in BC.

As a Neurodivergent-East-Van-Cancer-Surviving-Queer with an invisible disability, I want to lend my compassion, leadership, organizational skills (did I mention I love spreadsheets?), and knowledge to serve you. I humbly ask that you support me so I can use my voice to support you. Thank you for your consideration!
