

I hope to be re-elected as a Board Director to be your representative for UBCPACTRA

My cumulative experiences will facilitate my place on a Board that will navigate the UBCPACTRA Membership into the future:

I was in the room when UBCP was formed. I've had the honour of being elected four times, and I've stayed engaged with our Membership through the years even when I was not on the Board.

A National Councillor twice, I'm the present and past Chair of the Background Committee, my experience as an Olso led me to be part of the 2017 Negotiation Team.

The On Set Liason Officer program , (OSLO) was my baby- it took 10 hard-fought years to get it up and running. The OLSO program was an important tool that afforded the Membership an outlet to be heard on issues occurring on Set.

Due to my dedication to the OLSO program I chose not to run in the last three Elections cycles, I conducted over 100 Set visits before COVID-19 and now the strike caused the program to be suspended.

This next round in negotiations will be one of the most important and challenging in our history. Institutional memory is vital and I have value and experience to add to the fight.

My focus has always been on our Membership. If you vote for me, I will continue to serve our Members whom I deeply value and respect.

In solidarity
