

I've been a UBCP member in the BC film and TV industry for over twenty years, with experience spanning commercials, background roles, voice acting in animation, and every on-camera category from actor to lead. I've been cast in Canadian and American TV and film productions at various budget levels, locally and nationally. I believe my extensive experience would add value to the executive board.

Having been in one of the most successful shows to come out of Canada, "Corner Gas" which is played throughout the world, I also have a keen understanding of the frustrations members have in anticipating residuals only to find the loopholes that prevent fair compensation. On the heels of SAG-Aftra's quest for fair compensation from streamers I hope to make strides in that area.

I would be honoured to serve the membership and continue the excellent work of our current board. Additionally, I'd like to explore the possibility of creating a program exclusively for UBCP members to develop and produce our own content.

Thank you for your consideration
