

I'm honoured to announce my candidacy for a Director position on our Executive Board. I'm guided by the value: 'give back to the community that gives so much to you'; I seek to give back to our union in the same way it has given so much to me these past 7 years.

My education, leadership experience, and passion to serve are my strongest qualifications to serve as a Director. My political science degree provides me with a strong grasp of policy development and governance, which is fundamental to effectively representing your views. My Masters in Business Management gives me insight into the critical business aspects of our industry. I possess important acumen in leadership, constructive problem-solving, and advocacy. I have experience developing DEI initiatives, which emphasize accessibility and inclusion for all. I'm specifically passionate about regulating and standardizing the casting process to accommodate more representation and opportunities for actors.

My firm commitment is to actively listen to your concerns, and ensure they are represented at the Board. Our industry has changed significantly in the past several years, and these changes will only accelerate. It is the responsibility of your representatives to safeguard and advance your rights. With technology threatening to disrupt our industry, I seek to ensure that our interests are not trivialized.

I'm enthusiastic to make a difference in our community and empower our members. I'm dedicated to leveraging my knowledge to advocate for you, improve our services, and foster a more vibrant and inclusive industry for all.
