

With a 23-year journey in the international film industry, I am excited to put forth my candidacy for a board position. My unique global experience provides me with invaluable insights that can contribute significantly to UBCP. My memberships with UBCP-Actra, DGC, DGA, and SAG have instilled a profound understanding of various dimensions and challenges within our community.

I believe that my global perspective allows me to bring forward innovative solutions and viewpoints that will benefit all union members, ensuring that every voice is heard and valued. My commitment is unwavering to the creation of an inclusive, transparent, and equitable environment. I stand for the unyielding representation of all members, making certain every concern is acknowledged with equal importance, ensuring that all decision-making is a reflection of our collective insight and mutual understanding.

As a dedicated advocate for every union member, my aim is to enhance communication and transparency, convinced that a well-informed union is a robust and unified one. My vision as a board member is marked by commitment, understanding, and a persistent pursuit for clarity and equity. Let us together bolster our union, making it more resilient, inclusive, and reflective of the diverse talents and perspectives that each member brings, solidifying our collective strength for the promising years ahead. Nothing holds power except for the power we attribute to it, so let's center our attention on the essential values we universally cherish about being part of UBCP.
